Cape Town

Dormac Cape Town

Dormac Cape Town is ideally situated with facilities within the Port of Cape Town. Dormac has a workshop, blasting and paint shed, secure yard and modern client project offices all adjacent to the dry dock as well as its own private repair quay all within the port. In addition to these port facilities there are a further two workshops and offices just outside the harbour entrance.

Dormac Cape Town is fully accredited by DNV with certification for 9001, 14001 and 18001.

Port of Cape Town Facilities

- Cape Town lies 120 nautical miles north-west of Cape Agulus, the most southerly point in Africa, and its situation on one of the World's main trade routes makes it one of the busiest ports in the South Africa.
- The Port of Cape Town has significant repair and maintenance facilities including two dry docks and a syncrolift available for ship repairs.
