Quality Policy

Dormac are proud to continue a tradition of quality service provided by its predecessors for the last 100 years. Our continued dedication to excellence in our business is expressed by our quality policy:

To provide products and services to the maritime and industrial sectors that meet or exceed the requirements of our customers. In so doing, we will promote safety, efficiency and economy.

The implementation and maintenance of a Quality Management System in accordance with ISO 9001 2015 will assist us in ensuring quality.

DORMAC has a range of other policies which supplement this policy in specific areas. These are contained within the Quality Management System Policy Manual.

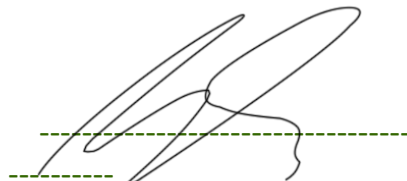

To state our commitment to compliance with legislation, regulation and industry rules as applicable.

To prevent non-conformance to customer requirements, through effective planning, training and use of technology.

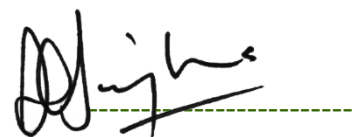

To promote a culture in which our staff are empowered to “get it right first time, every time”, and to provide them with the resources they need to achieve this and strive for continual improvement.

To optimize cost-effectiveness, to ensure competitiveness, positive returns and growth.

4th January 2023

Chris Sparg
Managing Director

Devon Simpkins
Financial Director
