

Located at the heart of Europe

EDR Antwerp Shipyard is located **in the Port of Antwerp**, heart of Europe. Through lock access, vessels up to 400 m in length and 54 m in width can access the non-tidal bound premises of the shipyard. The port is accessible for vessels up to 15 m and our lay by berths can accommodate vessels up to 8.5 m.

All modern travel facilities and accommodations are easy accessible:

- Antwerp Central Station and Antwerp Airport **10 km**
- Brussels and Brussels Airport **50 km**
- Amsterdam and Schiphol **180 km**
- Paris and Charles de Gaulle **350 km**

EDR in ch

EDR Antwerp started as a cargo operator for our clients' berths and docks.

In 2006, EDR Antwerp Parts Distribution Center was established.

Offering services with a success formula of the biggest shipyard in the world.

In 2015 EDR Antwerp expanded the yard in Antwerp. EDR Antwerp drydocks, cranes and workshops have been established.

EDR Antwerp Shipyard renews challenging projects. It's benchmark activities through our facilities.

Flexible one-stop-shop solutions

EDR Antwerp Shipyard offers a full range of shiprepair and maintenance services for vessels either in drydock, at our dedicated repair berths, at the commercial terminal or even during navigation. **The services we can provide 24/7 include:**

Technical supplies

- Sale and purchase of critical spare parts 24/7
- Supply of original spare parts or alternative high-quality solutions
- Assistance of managers whilst your vessel is in dock
- Crane load tests
- Safety equipment and services
- Supply of auxiliary spares through wholesale agreements directly with manufacturers
- Valves, tools, consumables and many more

Shiprepair & maintenance

- Conversions and turnkey projects
- Installation of all-type Ballast Water Treatment Systems and Scrubbers
- Special Surveys
