## SOLUTIONS IN

DESIGN, CONSTRUCTION, REPAIR AND  
MAINTENANCE OF VESSELS.

# VISIÓN

To be the leading strategic ally of our clients  
and responsible for the environment.

## HSE AND CORPORATE SOCIAL RESPONSIBILITY

At Astivik we take responsibility for the care and protection of people, the environment and infrastructure. Our human talent specialized in health and safety at work, ensure the prevention of occupational hazards in all the activities we carry out. We establish as a priority the integrity of our personnel, clients, crew members, contractors, subcontractors and suppliers, based on the implementation of an occupational health and safety management system.

We comply with all the necessary procedures for high-risk tasks, highlighting activities such as hot work, confined spaces, work at height and handling of layher-type scaffolds, handling of dangerous substances and load lifting.

All personnel are required to hold HSE certifications, emphasizing OSHA Res. 1409/12 and NFPA.

We work to develop and offer efficient and quality processes minimizing environmental impact, for that reason we do our best to mitigate these impacts, offset them with plans that allow us to safeguard our planet.
