

TIGM
TOP GLORY MARINE

Comprehensive Green Maritime Waste Management Expertise

Founded in 2013 in Oldenburg Top Glory Marine Service is the first platform provider for ship's waste management worldwide. The platform connects waste disposal companies, ship owners and ship managers. Using economies of scale and by customizing offload-strategies for each individual ship, we can achieve lower prices for the disposal of MARPOL relevant materials. At the same time, we audit waste disposal companies to comply with our Green Policy, which ensures the highest environmental standards and recycling rates - all traceable and documented in our EFC cloud.

We guarantee a 24/7 service worldwide for our customers through our offices. With our team of 15 experts experienced in waste management and shipping industry we are serving over 400 contracted ships.

IFYOU WOULD LIKE TO LEARN MORE ABOUT OUR SERVICES, PLEASE CONTACT US AT ANYTIME.
